HIGH POTENTIAL COMMUNITY

10th Taftie High Potential E-Pitch Session
organized by EuroQuity

Taftie High Potential Community

The Taftie High Potential Community on EuroQuity aims at gathering the best innovative potential SMEs of each European country to provide them new opportunities to support their growth on a continental level. One of the key services of this community is to organize e-pitch sessions addressed to innovative companies.

Currently, it gathers more than 100 high potential companies which were selected by the national innovation agencies members of Taftie (The European Network of Innovation Agencies).

Now is your time to shine! You have been flagged as a high potential company and are therefore invited to join EuroQuity where European VCs will have access to your profile and fundraising.
